

# Stretch films

## ELIMINATOR Cast stretch film

### Superior Strength

A leader in strength formulated with metallocene high-tech resins.

### High Puncture Resistance

Reduce damage to load with a puncture resistant cast film.

### Silent Unwind

Excellent noise reduction during the unwind process.

### Excellent Clarity

Provides clarity to see products underneath without sacrificing strength.

# ELIMINATOR Cast Stretch Film

**High performance cast film for applications demanding exceptional strength.**

Signode's Eliminator film is a cast coextruded stretch film formulated to provide superior holding force at up to 300% pre-stretch levels on automatic and semi-automatic wrappers. High performance cast stretch film is well suited for a variety of different applications and optimum load containment.

## Features and benefits

- **High puncture resistance**

Cast film offers exceptional strength and is highly puncture resistant.

- **Differential cling film**

Contains no migrating tack, eliminating residue.

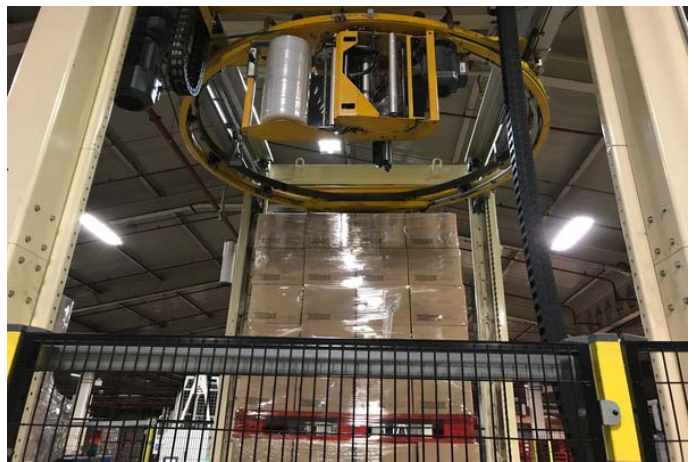

- **High cling**

Film stays secure to the load with the high cling inside surface.

## Pairing Eliminator film with Octopus®

**High performance cast film demands best in class, high performance wrapping system.**

Our leading Octopus brand is known for its durability and ease of use. The Octopus features a rotating ring that can apply up to 1,000 pounds of tension to the stretch film. This ensures that your pallets are securely wrapped and protected from damage. If you are looking for a way to improve your pallet wrapping efficiency, a ring stretch wrapper from Signode is a great option. Our machines are designed to wrap pallets quickly and evenly, ensuring your loads are secure and protected.

## Technical Specifications

<b>Extrusion</b>	CAST, 5 layers
<b>Performance</b>	Up to 300%
<b>Cling</b>	Differential
<b>Width (In)</b>	20" - 30"
<b>Length (ft)</b>	4,000 - 8,000
<b>Gauge</b>	51 - 250
<b>Roll weight (lbs)</b>	36.8 lbs - 57.6 lbs
<b>Rolls per pallet</b>	40 - 20
